# ALEXEI BOROVOI

## DATA ANALYST

## DETAILS

**ADDRESS**
Saint Petersburg
Russian Federation

**PHONE**
+79112457000

**EMAIL**
aborovoi@proton.me

## LINKS

LinkedIn

Telegram

GitHub

## SKILLS

Microsoft Excel

Python

SQL

Mathematical Statistics

A/B testing

Classical ML

Project Management

## HOBBIES

In my free time,
I study data analysis
(watching educational
channels, reading articles),
trying not to break the
work-life balance.

## LANGUAGES

## PROFILE

I would like to be part of a team to create a quality product and learn new technologies, pump up hard and soft skills. My goal is to excel in big data and develop in the field of data analysis and product analytics.

## EMPLOYMENT HISTORY

**Engineer, Central Design Bureau for Marine Engineering Rubin**                    Saint Petersburg

Oct 2014 — Present

- Implemented Lean technologies in production (5S, Kaizen, Kanban).
- Justified investments in the purchase of additional machine tools to reduce labor intensity and production time (economic effect amounted to more than 1.0 million rubles/year).
- Developed and implemented the visual navigation in a building for 3000 employees (reduced the time spent by employees moving around the building by half).
- Improved the internal software (made documentation work 2 times faster).
- Performed customer-side support (from implementation cost analysis to commissioning) for several large test sites and assembly shops.

## EDUCATION

**Master degree in engineering, Saint Petersburg State University of Architecture and Civil Engineering**                    Saint Petersburg

Sep 2006 — Jul 2011

## COURSES

**Data Analyst, ITMO University**

Sep 2022 — Dec 2022

**Interactive SQL simulator, Stepik.org**

Dec 2022 — Jan 2023

**Python Generation: A Course for Beginners, Stepik.org**

Nov 2021 — Jan 2022
